

FEEDBACK FROM THE CHAIR

"Hello and welcome to this edition of the CIOB-KZN Newsletter. I am Peter Utting and I am the chair of the KZN committee. This newsletter is intended to provide CIOB members with updates and information with specific importance to us in KZN. It is also the platform where we will inform members of events and activities to be run in our province. This will include CPD events, Site Visits, Fundraisers and Membership Evenings. We hope you find it informative and useful."

2010 AGM BRAAI

The committee would like to thank all those who attended the recent 2010 AGM Braai held at the Durban Surf Lifesaving Club on Durban Beach Front. The evening consisted of:

- Introducing the committee members
- Re-elections
- Membership presentation

STANDARDS & EDUCATION

With each issue of the Newsletter, we will look to update members on a 'Portfolio' or project the committee is working on. This time it is the Standards and Education folder. This portfolio is lead by Antonio Chessa and deals with the following main issues:

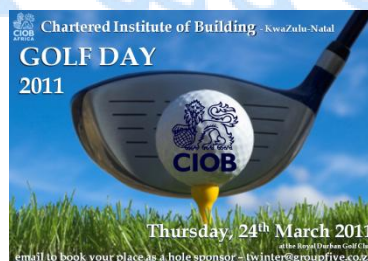

- Reviewing current curriculum structures at all tertiary institutions in KZN offering quantity surveying and construction management as a degree or diploma.
- Reviewing the standard of education at the tertiary institutions.
- Introducing CIOB standards and requirements to the tertiary institutions for CIOB accreditation.
- Standardising experiential training requirements among the tertiary institutions and construction companies.
- Work in close association with all professional bodies regarding standards & education within the construction industry.
